

## Company profile

## Overview

Regent Gas is a privately owned British commercial gas supplier dedicated to providing natural gas, connection and metering services to business users throughout England, Scotland and Wales.

Founded in 1995, Regent Gas is today recommended by the UK's leading business energy brokers. The company is regulated by Ofgem, the Office of Gas and Electricity Markets, for its gas shipping and gas supply activities.

## Core values

The guiding principles which govern all Regent Gas activities are:

- Competitive and flexible choice in commercial gas supply contracts
- Complete all-in-one solutions; supply, connection and metering
- Dedicated customer service; great help & advice, no call centres
- Simplicity and transparency in everything we do

## Customers

We serve small, medium and large businesses that rely on a stable gas supply for single site or multiple site operations. Our loyal customers include food growers, hotels, leisure centres, manufacturing plants, offices, shops, warehouses and many other types of business. We do not supply domestic sites.

## Contracts

Regent Gas offers its customers a range of competitively priced commercial gas supply contracts designed to help businesses budget more accurately and reduce volatility in their energy bills.

Our four main types of gas contract are:

- Fixed price
- Fixed price with mid-term review
- Fixed term deferred purchase
- Tailored

A detailed description of each type of contract can be found at [www.regentgas.co.uk/gas-contracts](http://www.regentgas.co.uk/gas-contracts)

## Site works

---

We also provide our customers with a comprehensive range of business gas connection and business gas metering services. These include:

- New gas connections
- Increasing / decreasing gas pressure
- Increasing gas supply through existing equipment
- Gas meter exchange
- Gas meter testing
- Gas meter disconnection
- Alteration or relocation of gas equipment

## Financial

---

Financial stability has been a hallmark of the Regent Gas business since its foundation in 1995. Its gas trading is funded purely from cash reserves, and no borrowings are required. The company has experienced continual growth for more than 20 years and its annual turnover in 2014 was £65 million.
